**Re: SE Portland Futel Phones**

I am writing in support of the Clinton and Foster-Powell Futel Telephones project.

I am enthusiastic about installing, hosting, and maintaining two installations in the Clinton and Foster-Powell neighborhoods. Futel phones serve as creative interactive art pieces while also providing much-needed communication services to underserved populations.

This project will be a fantastic addition to both neighborhoods.

Sincerely,

A handwritten signature in black ink, appearing to read 'Chris Contolini', with a stylized, cursive script.
