To Whom It May Concern,

I am writing in support of the Clinton and Foster-Powell Futel Telephones project. Personal Telco Project is committed to providing operational support and hardware for this project, which will greatly help many people in the Clinton and Foster-Powell neighborhoods. Supporting people across the digital divide is a key element of resiliency and vibrancy for these communities.

Sincerely,

A handwritten signature in black ink, appearing to read "Russell Senior", is positioned above the typed name.

Russell Senior, President
Personal Telco Project, Inc.
